

Shaftesbury Clinic

Client:

Springfield Hospital

Description of the works:

Internal refurbishment and reconfiguration of an occupied medium/high secure hospital unit over 12 months. Security/safety of patients, staff and workmen strictly controlled. Tools and belongings 'counted' in and out of each shift. Daily meeting with building users was a must. Weekly co-ordination meetings requested with the designers.

Principal Consultants:

Architect – William Martin & Partners

Project Managers – MF Projects

Contract Value: £1.6m
