

St Mary & St Nicholas Church

Client: St Mary & St Nicholas Parish

Description of works

The work included, removal of Pews and woodblock flooring excavation works to accommodate a new under floor heating system.

During the floor excavations and under the supervision of an archaeologist we encountered significant tombs and other remains. All items encountered were dealt with by Bisley sympathetically and efficiently in accordance with designs produced at the time by the Architect and the Structural Engineer.

Design Team: Thomas Ford & Partners

Synergy Constructions & Property Consultants

Contract value: Circa £630k

Duration: 30 weeks
