

Welldishes Oast, Linton, Maidstone

Client:

Private Client

Description of the works:

Alterations and extension to provide a new Roundel at Welldishes Oast, Linton, Maidstone. This project included high-specification joinery fittings and curved brickwork to a high standard of finish.

Value: £225,000

Architect:

Antony Teal Associates, Tenterden, Kent

Notes:

This was a particularly unusual contract to build a circular extension as a new Roundel to the existing Oast House for a private client. It required great care with both bricklaying and joinery works to ensure the required high quality finishes were delivered.
